## **<Webinar Program>**

### **Webinar 3**

**When:** 17<sup>th</sup> December 2020 (17:00 (JST), 9:00 (CET))

**Lecturer:**

Mr. Peter Möhring

General Manager, Security Network Munich

Alliance Manager, Giesecke+Devrient

**Lecture:**

“Strategies for Mitigating Cyber-risks: the approach of Security Network Munich”

**Lecture summary**

The presentation will explain different strategic angles on how to contain cyber-risks.

Digital technologies are transforming the ways we do business, organize public services, receive schooling or training and some aspects of our personal life too. Practically it affects the whole society and the COVID 19 Pandemic has shown how connected and interdependent the world has become thanks to digital services and technologies.

To mitigate cyber-risks, we can look at 3 fields of action: 1) Policy Making and Regulation 2) Technical Solutions and Concepts 3) Risk Management. I will give examples and ideas for all areas after highlighting some tendencies and developments of cyber threats.

The presentation will only cover non-military cyber threats and actors.
